RESPONSE TO APPLICANT'S ARGUMENTS

1. The Applicant's arguments filed 5/3/07 to the rejection of the claims made by the Examiner under 35 USC 103 and/or double patenting have been fully considered and deemed persuasive-in-part.

Note: Claims 64-69 and 80 are pending.

103 Rejection

The 103(a) rejection is WITHDRAWN for reasons of record in Applicant's response.

Double Patenting Rejections

I. The provisional rejection of claims 64-69 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 26 and 30 of copending application number 10/356,240 is MAINTAINED for reasons of record in the office action mailed 11/3/06 and those set forth below.

In summary, Applicant asserts that the provisional double patenting rejection should be withdrawn because the instant application was filed before the copending application.

Applicant's response has been considered. However, the rejection will remain of record until it such time that the provisional double patenting rejection is the only rejection of record.

II. The provisional rejection of claims 64-69 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 49 and 53 of

Art Unit: 1618

copending application number 10/761,794 is MAINTAINED for reasons of record in the office action mailed 11/3/06 and those set forth below.

In summary, Applicant asserts that the provisional double patenting rejection should be withdrawn because the instant application was filed before the copending application.

Applicant's response has been considered. However, the rejection will remain of record until it such time that the provisional double patenting rejection is the only rejection of record.

III. The rejection of claims 64-69 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 12, 13, 15, 17, 19, 20, and 31 of US Patent No. 6,630,126 is MAINTAINED for reasons of record in the office action mailed 11/3/06 and those set forth below

It is duly noted that Applicant is amenable to filing a terminal disclaimer once claims are allowable over the prior art.

IV. The rejection of claims 64-69 on the ground of nonstatutory type-type double patenting as being unpatentable over claims 1-8 and 24-34 of US Patent No. 6,808,699 is MAINTAINED for reasons of record in the office action mailed 11/3/06 and those set forth below

Art Unit: 1618

WITHDRAWN CLAIM

2. Claim 80 is withdrawn from further consideration by the Examiner, 37 CFR 1.142(b), as being drawn to a non-elected invention.

COMMENTS/NOTES

3. *Applicant is once again respectfully requested to amend the claims to read on the elected invention.* Applicant's elected invention, Group VII, is drawn to a method of evaluating the efficacy of a targeted drug therapy wherein the treatment is cardiac/pulmonary and a pharmaceutical preparation is administered. The claims are distinguished over the prior art of record because the prior art neither anticipates nor renders obvious a method of evaluating efficacy of a targeted drug therapy as set forth in Group VII.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
